

Markus Luis Flores

Calgary, Alberta, Canada • 368-299-0497 • markuslflores@gmail.com

Software Developer with more than 5 years of experience in developing and maintaining large-scale applications. Has a proven track record of writing clean and efficient code, and designing business-oriented software that caters to the needs of the user. Team player, good collaborator and can easily adjust to any role according to the team's needs.

Highlights

- 5 years of software development experience in a **Software as a Service (SaaS)** product
- Advanced knowledge in full-stack development using modern technologies such as **React.js**, and **TypeScript**
- Strong familiarity with **SQL** and **NoSQL** databases: **MySQL**, **MSSQL**, **PostgreSQL**, **Oracle DB**, **MongoDB**, **Firebase**
- Experienced in Version control tools such as: **GitHub**, **GitLab**, and **AccuRev**.
- Skilled in using bug tracking tools such as **Jira** and **Trello** to manage and resolve issues efficiently
- Experienced with **Test-Driven Development (TDD)**, including creating automation tests using Infor and RBC's internal testing framework and documenting manual tests (**unit**, **integration**, **functional**, and **regression**)
- Proven ability to collaborate with cross-functional teams, including Developers, Quality Assurance (QA), and Business Analysts (BA) in an **Agile** environment
- Knowledgeable with AI and automation tools such as **OpenAI**, **LangChain**, **Cursor**, and **n8n** to enhance workflows and accelerate product development

Experience

SDET – QUALITY ENGINEER

Royal Bank of Canada (RBC) | May 2025 – Present

- Develop and execute comprehensive test strategies and technical solutions for Wealth Management Technology.
- Collaborate in **Agile** ceremonies to align QA efforts with project deliverables.
- Design optimized test cases, leveraging **automation** frameworks to support end-to-end, and integration, testing.
- Automate and maintain regression suites using **Playwright** and internal testing tools.
- Manage test execution and defect triage, providing test documentation and status updates to stakeholders.
- Support server deployments by configuring environments, validating builds, and performing post-deployment checks.

SOFTWARE ENGINEER

Infor PSSC, Inc. | Dec 2018 – June 2023

- Designed and developed new features and enhancements for Infor's SaaS Human Capital Management (**HCM**) platform based on business requirements.
- Maintained and improved existing HCM modules using **Agile** and object-oriented programming (**OOP**) practices.
- Led code reviews through meetings, **Crucible**, and **GitLab**. Maintained release versions code using **AccuRev** and **Git**.
- Authored functional and technical design documents, user documentation, and client knowledge transfer (**KT**) materials.
- Collaborated with Business Analysts and Product Owners to influence design decisions and deliver customer solutions.
- Supported QA teams by preparing detailed test cases, contributing to automation scripts, and ensuring coverage for functional and regression testing.

Skills

Frontend: HTML, CSS, Tailwind CSS, React.js, Next.js, JavaScript, TypeScript, Mantine

Backend: Java, PHP, Node.js, SQL, NoSQL, Docker

AI Tools: Claude Code, Copilot, Cursor, n8n

Testing: Selenium, Playwright, Postman

Others: Git, RESTful API, Jira, Trello, Confluence, Agile Scrum Methodology, AccuRev

Soft Skills: Problem-solving, Detail-oriented, Critical thinking, Adaptability, Communication, Collaboration/ Teamwork

Education

DIPLOMA IN SOFTWARE DEVELOPMENT

Southern Alberta Institute of Technology (SAIT) | Calgary, Alberta | Sept 2023 – April 2025

With Honours

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

De La Salle University | Manila, Philippines | May 2014 – August 2018

5x Dean's Lister

Projects

INFOR CARPOOL PROJECT

February 2019 – May 2022 | Volunteer

Created a mobile carpool booking application developed with Infor Community of Business Analysts. The project won Infor's Innovation Flight Central's Shark Tank competition and Habi Team of the Year in Infor's Sinagtala Awards.

ORBIT INVENTORY MANAGEMENT SYSTEM

September 2024 – May 2025 | Capstone Project

Created an inventory management system for Wing Kei Care Centre. The system includes inventory tracking, approval, and reports based on user's access levels. Developed using **Next.js**, **React.js**, **TypeScript**, **Mantine**, **Firebase**, and **GitHub**.

Volunteer Experience

QUALITY ASSURANCE TESTER

Empowered Futures | June 2024 | Volunteer

- Perform end-to-end testing for the Empowered Futures Connect platform.
- Document scenarios, steps to replicate, and test evidence on issues and concerns found during software testing.
- Provide feedback on the usability of the application for different roles and perspectives.
